WORK EXPERIENCE

Statistics Canada <i>Full Stack Developer</i>	Ottawa, ON (January 2019 - August 2019)
<ul style="list-style-type: none">As part of the Canadian System of Integrated Statistical Registers team, I had the chance to gain invaluable experience on all aspects of our tech stack.Mainly, I worked on integrating new features for our Register Matching Engine (RME), a system that correlates and connects all relevant registers into one page.Ran and created a whole new testing suite to improve our backend and frontend robustness using JUnit and Selenium.<i>Tech used: Java, Spring MVC/Boot, Thymeleaf & JS, MS SQL & Liquibase, JUnit & Selenium</i>	

PROJECTS

Hitchcock's List <i>Personal/Passion Project</i>	Vancouver, BC (September 2020 - Present)
<ul style="list-style-type: none">As an avid filmmaker and a fan of films, I want to build a platform to review movies with the ability to update them on my next viewing. Essentially, I'd be able to keep track of all reviews from different dates under a film. I hope this provides insights into my changing taste and appreciation for films.<i>Tech being used: Express.js, Node, EJS, MongoDB Atlas</i>	

EXTRACURRICULAR

Remembering <i>First Short Film</i>	Vancouver, BC (August 2020)
<ul style="list-style-type: none">My first short film. Synopsis: A female university student that deals with a breakup. She tries to dig herself out of a pit of emotional agony. She reconciles her past. The journey is rather depressing but provides clarity.	
UBC Computer Science Student Society <i>Officer</i>	Vancouver, BC (September 2017 - April 2018)
<ul style="list-style-type: none">Organized computer science-related events by communicating with student body and executive team.
