RYAN LEE

COMPUTER SCIENCE MAJOR

ryanlee@alumni.ubc.ca

604.445.1770

ABOUT ME

Technical Skills	Java, C++, Spring MVC/Boot, MS SQL, JUnit, Selenium
Web & Design	TypeScript, Express/Node.js, Thymeleaf, HTML/CSS, Adobe XD CC
Software & Tools	JIRA, BitBucket, Confluence, IntelliJ, Atom, Android Studio

WORK EXPERIENCE

Statistics Canada   Ottawa, ON (January 2019 - August 2019)

Full Stack Developer

· As part of the Canadian System of Integrated Statistical Registers team, I had the chance to gain invaluable experience on all aspects of our tech stack.

· Mainly, I worked on integrating new features for our Register Matching Engine (RME), a system that correlates and connects all relevant registers into one page.

· Ran and created a whole new testing suite to improve our backend and frontend robustness using JUnit and Selenium.

· *Tech used: Java, Spring MVC/Boot, Thymeleaf & JS, MS SQL & Liquibase, JUnit & Selenium*

PROJECTS

Hitchcock's List   Vancouver, BC (September 2020 - Present)

Personal/Passion Project

· As an avid filmmaker and a fan of films, I wanted a platform that tracks the movies I've enjoyed watching and review them with the ability to update them the next time I watch it. I hope this will provide an insight into my changing taste and appreciation for films.

· *Tech being used: Express.js, Node, EJS, MongoDB Atlas*

EXTRACURRICULAR

Remembering   Vancouver, BC (August 2020)

First Short Film

· My first short film. Synopsis: A female university student that deals with a breakup. She tries to dig herself out of a pit of emotional agony. She reconciles her past. The journey is rather depressing but provides clarity.

UBC Computer Science Student Society   Vancouver, BC (September 2017 - April 2018)

Officer

· Organized computer science-related events by communicating with student body and executive team.

EDUCATION

University of British Columbia   Vancouver, BC (September 2016 - Present)

Bachelor of Science, Major in Computer Science

Expected Graduation: September 2021
